-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Besnard (U.S. patent 3,576,044).

The patent to Besnard discloses the invention as is claimed. Note figures 2 or 5 which show a wiper arm (1) with a groove (5,6), a connecting shaft (12) provided on a blade (2) and having chamfered portions (13) for detachably and rotatably coupling with the arm via the groove. The attaching groove is provided with an inner portion (6) having a larger diameter than the connecting shaft and a groove entrance portion (5) having a width narrower than the groove inner portion. Such components allow for detachment of the arm from the blade upon the proper orientation of the chamfered portions with the groove.

Response to Arguments

Applicant's arguments filed 08 April 2004 have been fully considered but they are not persuasive. Applicant argues that claims 1 and 10 have been amended to incorporate the allowable features of claims 2 and 12. Such is not persuasive. Incorporation of some of the limitations of claim 2 into claim 1 and some of the limitations of claim 12 into claim 10 is not sufficient to render the claims allowable. As set forth above, claims 1 and 10 are still deemed rejectable by Besnard as he discloses a connecting shaft (12) having large and small diameter portions due to chamfered portions (13).

Allowable Subject Matter

Claims 2, 3, 7 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
